

WEEK OF: JUNE 15 – JUNE 19, 2020 (SUMMER SCHOOL)

NAME: Chin-Tang Liu

HS Math

	MON 6/15	TUES 6/16	WED 6/17	THURS 6/18	FRI 6/19
ALGEBRA I	TOPIC: Slope-Intercept Form Objective: Graph linear equations with slope-intercept form. Standards: MAFS.912.F-IF.3.7.a	TOPIC: Point-Slope Form Objective: Graph linear equations with point-slope form. Standards: MAFS.912.F-LE.1.2	TOPIC: Standard Form (Part I) Objective: Rewrite linear equations in standard form. Standards: MAFS.912.A-CED.1.2	TOPIC: Standard Form (Part II) Objective: Rewrite linear equations in standard form. Standards: MAFS.912.A-CED.1.2	TOPIC: Parallel and Perpendicular Lines Objective: Determine whether lines are parallel, perpendicular, or neither. Standards: MAFS.912.G-GPE.2.5
	<ol style="list-style-type: none">1. Login into Webex meeting from 10:00 AM to 11:00 AM at: https://meetingsamer10.webex.com/meet/chintang.liu2. Log in and begin working on assignment path in Edgenuity https://auth.edgenuity.com/Login/Login/Student	<ol style="list-style-type: none">1. Login into Webex meeting from 10:00 AM to 11:00 AM at: https://meetingsamer10.webex.com/meet/chintang.liu2. Log in and begin working on assignment path in Edgenuity https://auth.edgenuity.com/Login/Login/Student	<ol style="list-style-type: none">1. Login into Webex meeting from 10:00 AM to 11:00 AM at: https://meetingsamer10.webex.com/meet/chintang.liu2. Log in and begin working on assignment path in Edgenuity https://auth.edgenuity.com/Login/Login/Student	<ol style="list-style-type: none">1. Login into Webex meeting from 10:00 AM to 11:00 AM at: https://meetingsamer10.webex.com/meet/chintang.liu2. Log in and begin working on assignment path in Edgenuity https://auth.edgenuity.com/Login/Login/Student	<ol style="list-style-type: none">1. Login into Webex meeting from 10:00 AM to 11:00 AM at: https://meetingsamer10.webex.com/meet/chintang.liu2. Log in and begin working on assignment path in Edgenuity https://auth.edgenuity.com/Login/Login/Student

Topic: Inverse Variation (Day 1)

Objective: Recognize and use inverse variation.

Standard: MAFS.912.A-CED.1.2

Login into Webex meeting from 12:00 PM to 1:00 PM at:
<https://meetingsamer10.webex.com/meet/chintang.liu>

1. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Inverse Variation (Day 2)

Objective: Use joint and other variations.

Standard: MAFS.912.A-CED.1.2

1. **Login into Webex meeting from 12:00 PM to 1:00 PM at:**
<https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Inverse Variation

Objective: Recognize and use inverse variation

Standard: MAFS.912.A-CED.1.2

1. **Login into Webex meeting from 12:00 PM to 1:00 PM at:**
<https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: The reciprocal function family (Day 1)

Objective: Graph reciprocal functions.

Standard: MAFS.912.F-BF.2.3

1. **Login into Webex meeting from 12:00 PM to 1:00 PM at:**
<https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: The reciprocal function family (Day 2)

Objective: Graph translations of reciprocal functions.

Standard: MAFS.912.F-BF.2.3

1. **Login into Webex meeting from 12:00 PM to 1:00 PM at:**
<https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

TOPIC: Slope-Intercept Form
Objective: Graph linear equations with slope-intercept form.
Standards: MAFS.912.F-IF.3.7.a

1. Login into Webex meeting from 11:00 AM to 12:00 PM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in USATestprep:

<https://www.usatestprep.com/states/states.php>

TOPIC: Point-Slope Form
Objective: Graph linear equations with point-slope form.
Standards: MAFS.912.F-LE.1.2

1. Login into Webex meeting from 11:00 AM to 12:00 PM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in USATestprep:

<https://www.usatestprep.com/states/states.php>

TOPIC: Standard Form (Part I)
Objective: Rewrite linear equations in standard form.
Standards: MAFS.912.A-CED.1.2

1. Login into Webex meeting from 11:00 AM to 12:00 PM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in USATestprep:

<https://www.usatestprep.com/states/states.php>

TOPIC: Standard Form (Part II)
Objective: Rewrite linear equations in standard form.
Standards: MAFS.912.A-CED.1.2

1. Login into Webex meeting from 11:00 AM to 12:00 PM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in USATestprep:

<https://www.usatestprep.com/states/states.php>

TOPIC: Parallel and Perpendicular Lines
Objective: Determine whether lines are parallel, perpendicular, or neither.
Standards: MAFS.912.G-GPE.2.5

1. Login into Webex meeting from 11:00 AM to 12:00 PM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in USATestprep:

<https://www.usatestprep.com/states/states.php>

GEOMETRY

Topic: Special Right Triangles (Day 1)
Objective: Use the properties of 45° - 45° - 90° and 30° - 60° - 90° triangles.
Standard:MAFS.912.G-SRT.3.8

1. Login into Webex meeting from 9:00 AM to 10:00 AM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Special Right Triangles (Day 2)
Objective: Use the properties of 45° - 45° - 90° and 30° - 60° - 90° triangles.
Standard:MAFS.912.G-SRT.3.8

1. Login into Webex meeting from 9:00 AM to 10:00 AM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Special Right Triangles (Day 3)
Objective: Use the properties of 45° - 45° - 90° and 30° - 60° - 90° triangles.
Standard:MAFS.912.G-SRT.3.8

1. Login into Webex meeting from 9:00 AM to 10:00 AM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Trigonometry (Day 1)
Objective: Use the sine cosine, and tangent ratios to determine side lengths and angle measures in right triangles.
Standard:MAFS.912.G-SRT.3.8

1. Login into Webex meeting from 9:00 AM to 10:00 AM at: <https://meetingsamer10.webex.com/meet/chintang.liu>

2. Log in and begin working on assignment path in Edgenuity

<https://auth.edgenuity.com/Login/Login/Student>

Topic: Trigonometry (Day 1)
