

WEEK OF: JUNE 22 – JUNE 25, 2020

NAME: David Sellepack

Science

	MON 6/22	TUES 6/23	WED 6/24	THURS 6/25	FRI
PHYSICAL SCIENCE	<p>Today you should be able to define carbon chain, allotropes, and organic compounds.</p> <p>Sign on to Webex from 11 to 12 (link below) <a href="https://stof.webex.com/meet/davidsellepack">https://stof.webex.com/meet/davidsellepack</a></p>	<p>Today you should be able to determine the name for an organic compound given a chart.</p> <p>Sign on to Webex from 11 to 12 (link below) <a href="https://stof.webex.com/meet/davidsellepack">https://stof.webex.com/meet/davidsellepack</a></p>	<p>Today students should be able to define mole and isotope. They should be able to convert from grams to moles and vice-versa.</p> <p>Sign on to Webex from 11 to 12 (link below) <a href="https://stof.webex.com/meet/davidsellepack">https://stof.webex.com/meet/davidsellepack</a></p>	<p>Today students should be able to calculate average mass and molar mass of a molecule.</p> <p>Sign on to Webex from 11 to 12 (link below) <a href="https://stof.webex.com/meet/davidsellepack">https://stof.webex.com/meet/davidsellepack</a></p>
